EZ Facility Safety Audit Guide NMC

Prepared for:
Company Name _____ Location _____
Contact _____ Distributor _____
Date of Audit _____
Reason for Audit _____

This easy to use, step-by-step EZ Facility Audit Guide will take you through each facility work area and provide you a checklist of required and recommended safety signs, tags and labels.

We suggest you start your audit in the parking lot then continue throughout your facility. Any area of the checklist that you believe to be irrelevant to your business should be left blank.

At the completion of your audit, you'll have a comprehensive list of signs, tags and labels that will enhance safety in your facility in the space provided.

Directions: Follow outline and list location & quantity of items needed (signs, tags, labels, etc.) in the space provided.

Many of our products are available in Bilingual (English/Spanish) versions. Please refer to your NMC catalog for available legends.

Material Specifications: For complete material descriptions refer to NMC catalog pages 22-23.

Table with 3 columns: Material Name, Abbrev., Material Description. Lists various materials like .125 Acrylic, .040 Aluminum, .063 Aluminum, etc. with their abbreviations and descriptions.

OSHA Guidelines

OSHA 29 CFR 1910.157(c)(1) & NFPA 101 Life Safety Code:

The location of fire extinguishers, sprinklers, hoses and alarms are to be clearly marked.

OSHA 29 CFR 1910.37 & the NFPA 101 Life Safety Code:

All exits are to be clearly marked.

OSHA 29 CFR 1910.37(q)(1)(3)(4)(6)(8):

An exit sign with an arrow showing the direction is to be placed in every location where the path of travel to the nearest exit is not apparent. Also all doors, passages and stairways which are not exits and/or may be mistaken as an exit, are to be identified as not an exit or by its actual property, i.e. "storage room", "closet", etc.

OSHA 28 CFR & Section 4.1.2(7) of the Americans With Disabilities Act:

Toilet/bathing facilities that are accessible shall be identified by the International Symbol of Accessibility.

OSHA 29 CFR 1910.1200:

Every container of hazardous chemicals must be labeled with chemical name and appropriate hazard warnings so employees are aware of potential exposure.

OSHA 29 CFR 1910.305(b)(3):

Covers for boxes are to be permanently marked "HIGH VOLTAGE" on the outside of the box cover.

NEC 430.102:

Disconnecting means for motor, motor circuits and controllers. "The provisions for locking or adding a lock to the disconnecting means shall be permanently installed "ON" or "AT" the switch or circuit breaker used as the disconnecting means."

OSHA 29 CFR 1910.145:

Where a hazardous situation could result in death or severe injury, signs are to be posted indicating immediate danger and which special precautions are necessary. Where a hazardous situation is capable of severe injury, signs are to be posted to caution against unsafe practices.

OSHA 29 CFR 1910.145(c)(2):

Caution signs are to be used to warn against potential hazards.

OSHA 29 CFR 1910.147:

All energy sources are required to be turned off and locked out while machines are being serviced or maintained. Any energy sources that cannot be locked out are to use a tag out system.

OSHA 29 CFR 1910.1450(h)(I) and .1200(g)(10):

Right to know material safety data sheets must be readily accessible to employees.

OSHA 29 CFR 1910.145:

Location signs for eyewash stations and safety showers are recommended.

OSHA 29 CFR 1910.146(c)(2):

Signs are to be posted near permit spaces to notify employees of what hazards may be present with messages such as "PERMIT REQUIRED CONFINED SPACE."

Parking Lot These items are designed to comply with current regulations.

<u>LEGEND</u>	<u>SIZE</u>	<u>MATERIAL</u>	<u>QTY.</u>	<u>LOCATION</u>	<u>CAT. NO.</u>	<u>PRICE</u>	<u>PAGE</u>

Forklift Traffic Area (Walk On Floor Sign)	17" Dia.	WOF	_____	_____	WFS20	\$19.87	126

In addition to the signage, floor marking tape is recommended. There may also be other specific hazards which need to be identified and marked. Look for such things as electrical panels (high voltage signs), first aid kits, overhead storage (load capacity signs), etc. If there are process pipes, you may want to consider pipe markers. See NMC product catalog for additional selections.

Other warehouse needs: _____

Compressed Gas Storage Area Common gases stored in this area are LP Gas, Acetylene, Oxygen, and Hydrogen. Oxygen cylinders must be separated from fuel-gas cylinders or combustible materials a minimum of 20 ft. or by a non-combustible barrier at least 5 ft. high.

<u>LEGEND</u>	<u>SIZE</u>	<u>MATERIAL</u>	<u>QTY.</u>	<u>LOCATION</u>	<u>CAT. NO.</u>	<u>PRICE</u>	<u>PAGE</u>

Compressed Gas	10x14	RP	_____	_____	D245RB	\$10.08	174
Cylinder Tags, 100/pack	6¼x3	Cardstock	_____	_____	CT499	\$23.69	94

In addition to the items, you may also want to consider marking designated areas with hazard marking tapes.

Other Compressed Gas Storage items: _____

Confined Space A confined space is any area which is large enough for human entry, has limited means for entry and exit, and is not designed for continuous occupancy.

<u>LEGEND</u>	<u>SIZE</u>	<u>MATERIAL</u>	<u>QTY.</u>	<u>LOCATION</u>	<u>CAT. NO.</u>	<u>PRICE</u>	<u>PAGE</u>
Confined Space Safety Center	28x32	Polystyrene	_____	_____	CSC	\$93.29	236
Confined Space Entry Permit Holder	16x22	.050 RP	_____	_____	EPH	\$24.05	236
Confined Space Do Not Enter	10x14	AL	_____	_____	D383AB	\$17.91	237
Confined Space Enter By Permit Only	10x14	AL	_____	_____	D126AB	\$17.91	237
Confined Space Enter By Permit	20x12	Floor Sign	_____	_____	FS21	\$22.07	128
Confined Space Do Not Enter	3"x1000'	Barr. Tape	_____	_____	PT52	\$15.38	286

Other Confined Space items: _____

Chemical Storage Area All companies, large or small, have chemicals that they store. The marking of this area is extremely important.

<u>LEGEND</u>	<u>SIZE</u>	<u>MATERIAL</u>	<u>QTY.</u>	<u>LOCATION</u>	<u>CAT. NO.</u>	<u>PRICE</u>	<u>PAGE</u>
Hazard Identification Wall Chart	24X30	Poster	_____	_____	HMCP100	\$22.25	140
Right to Know Station	30x24	Polystyrene	_____	_____	RTK	\$137.51	191
Chemical Storage Area	10x14	FG	_____	_____	D239EB	\$20.80	174
Fire Extinguisher (Glow)	12x9	RPG	_____	_____	GL10R	\$16.87	162
No Smoking Within 50 Ft.	10x14	RP	_____	_____	D124RB	\$10.08	166
Hazardous Material Label	15x15	RP	_____	_____	HMS15R	\$15.71	190

Within this area there can be the transfer of chemicals from larger containers to smaller ones used in other areas of the facility. These smaller containers must be labeled. NMC offers Container labels and Write On Hazardous Communication labels for compliance. Aisle marking tapes can be useful in this area, as well.

Other Chemical Storage items: _____

Spray Booth Spray booth operations can be both a physical and health hazard. In these areas, the use of flammable and combustible liquids, present several hazards. Markings are required in this area as such.

<u>LEGEND</u>	<u>SIZE</u>	<u>MATERIAL</u>	<u>QTY.</u>	<u>LOCATION</u>	<u>CAT. NO.</u>	<u>PRICE</u>	<u>PAGE</u>
